

Introducing our Sleek range - a harmonious fusion of modern sophistication and exceptional value for your Garden room or Office unit needs. Let's delve into the comprehensive features that set the Sleek range apart:

Windows: Enjoy an abundance of natural light with two double-glazed windows. The window configuration varies depending on the unit size, with one window provided for units measuring 4m & shorter.

Entrance Door: Step into your sleek unit through the sturdy and stylish aluminium entrance door, ensuring security and convenience.

Insulated Walls and Roof: Experience optimal thermal insulation with 50mm insulated sandwich panels used for both the walls and roof. This ensures a comfortable interior environment, whatever the weather.

Moisture Resistant Floor: The floor is constructed with a 22mm T&G moisture-resistant floorboard, providing durability and longevity. The floor is finished with vinyl flooring, offering an easy-to-maintain and stylish surface.
